Let's Start!

The Galapagos Islands have been so influential for scientific research!

Learning Outcome

Describe past experiences in a range of social and work contexts.

Ask your partner:

- Have you heard of Charles Darwin?
- What do you know about Charles Darwin?
- What do you know about his discoveries, his research or places he visited?

Can Do Statements

- I can talk about natural wonders.
- I can discuss experiences I've had or haven't had.
- I can ask detailed questions about a place of interest.

Let's Explore!

Let's **walk in the footsteps** *of a legendary explorer!

* When you "*walk in the footsteps*" of someone, you go to the same places that they did.

Instructions: Read the text aloud.

Have you ever dreamed of traveling to an exotic place you've only read about in books? How exciting would it be to walk in the footsteps of a legendary explorer? How far would you go to discover uncharted territories? If you are looking for the trip of a lifetime, hop on a boat to the Galapagos and experience what Charles Darwin felt when he saw the dramatic landscape unfold before his eyes.

The Galapagos Islands have attracted travelers from all over the world because of their outstanding beauty. They are an archipelago of volcanic islands in the Pacific Ocean, roughly 1000 kilometers west of Ecuador.

They are famous for the giant Galapagos tortoises, iguanas, and other unique types of wildlife. The biologist Charles Darwin was so impressed with his observations that he wrote his famous book, *The Origin of Species*, after one of his voyages.

The Galapagos Islands have fascinated scientists and adventurers for generations. How amazing would it be to take part in an expedition to this remote land?

Let's Practice!

Have you ever seen a place like this?

Instructions: Match the sentences to put them in the correct order.

- | | |
|---------------------------|--|
| 1) Have you ever dreamed | a) in the footsteps of an explorer? |
| 2) The Galapagos | b) have attracted travelers from all over the world. |
| 3) Have you ever followed | c) of traveling to an exotic place? |
| 4) Darwin's research | d) have traveled to the Galapagos for many years. |
| 5) Adventurers | e) has fascinated biologists for two centuries. |

Let's Practice!

How would you describe the Galapagos?

Instructions: Use the terms of the word bank to complete the questions.

Word Bank

- famous
- amazing
- dramatic
- exciting
- far

- 1) How _____ exciting would it be to travel with a legendary explorer?
- 2) How _____ far would you go to discover uncharted territories?
- 3) How _____ famous are the Galapagos?
- 4) How _____ dramatic is the landscape?
- 5) How _____ amazing would it be to take part in an expedition?

Extension Activity

Let's find out about famous scientists.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Go online and find information about a famous scientist.
- Write a sentence about who they were.
- Find out where they traveled to and how did they get there.
- Find out how they helped the world. For example, did they discover a new species? A new material?
- Write a presentation (12-14 lines).
- Share your presentation with your partner.

Self-Assessment

Yes

No

I write about natural wonders.

☐ ☐

I write about famous scientists.

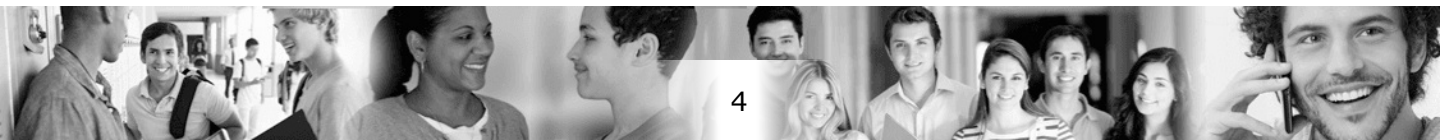

☐ ☐

I write about events in the past.

☐ ☐

Target Words

- exotic** (adjective): characteristic of a distant foreign country
e.g. Have you ever traveled to an exotic place?
- observation** (noun): the act of noting facts for scientific research
e.g. *The Origin of Species* is based on Darwin's observations.
- uncharted** (adjective): an area not mapped or surveyed
e.g. How far would you go to discover uncharted territories?
- to unfold** (verb): to be revealed or exposed; to happen
e.g. Darwin saw the dramatic landscape unfold before his eyes.
- archipelago** (noun): a group of islands
e.g. The Galapagos are an archipelago 1000 km west of Ecuador.
- volcanic** (adjective): relating to a volcano
e.g. The Galapagos are an archipelago of volcanic islands.
- biologist** (noun): a scientist who focuses on living organisms
e.g. Darwin was the most influential biologist of his time.
- voyage** (noun): a long journey by sea
e.g. Darwin wrote *The Origin of Species* after one of his voyages.
- expedition** (noun): a journey with a specific purpose, like exploration or research
e.g. How amazing would it be to take part in an expedition to this remote land?

Learning Points

The Present Perfect Tense vs. The Simple Past Tense

You use the Present Perfect tense to talk about a finished action or event that is connected to the present in some way.

You use the Simple Past tense to talk about a finished action or event **not** necessarily connected to the present.

For example:

- *I have visited Argentina* = I went to Argentina in the past and I can visit the country again.

Look at the chart about how to form the Present Perfect tense:

	Past tense form	Past participle form	Example
dream	dreamed	dreamed	<i>Have you ever dreamed ... ?</i>
attract	attracted	attracted	<i>The Islands have attracted travelers ...</i>
read	read	read	<i>Have you read about ... ?</i>

For the Present Perfect, we have to use the verb *to have*, and the past participle of the other action.

For example:

- *The Galapagos Islands have attracted travelers from all over the world ...* (They attracted travelers in the past and they still attract travelers.)
- *The Galapagos Islands have fascinated scientists and adventurers for generations.* (They fascinated scientists in the past until now.)

Examples:

- *Have you ever dreamed of traveling to an exotic place you've only read about in books?*
- *Charles Darwin was so impressed with his observations that he wrote The Origin of Species after one of his voyages.*

Learning Points

Questions with How + adjectives

You use *How* + *adjective* in a question if you want to know how someone or something is.

Examples:

- *How exciting would it be to travel like an explorer?*
- *How amazing would it be to take part in an expedition?*
