Let's Start!

The Galapagos are truly like nowhere else on the planet.

Learning Outcome

Describe routines and regular activities in a wider range of social and work contexts.

Ask your partner:

- Imagine you can travel anywhere in the world.
- Where would you like to go?
- Would it be a famous place or a remote location?

Can Do Statements

- I can talk about possibilities when visiting natural wonders.
- I can talk about things to do on a trip.
- I can describe specific parts of natural wonders.

Let's Explore!

The Galapagos are truly magnificent to **behold***!

* To "*behold*" means to observe or to see.

Instructions: Read the text aloud.

Imagine traveling to the Galapagos Islands yourself. As you arrive, you might pass one of the islands' active volcanoes as it spews smoke or spouts out lava. Don't worry, these volcanoes won't erupt violently!

You could stay at one of Puerto Ayora's quaint hotels, shop in one of the many crafts stores, or dine in a fine seafood restaurant. You may find yourself dodging one of the many wild animals that wander the islands freely.

Remember, tourists aren't allowed to touch the animals. Of course, the animals may touch the tourists – if they choose to!

As you continue your journey, you might be lucky enough to discover one of the islands' glowing beaches, where the accumulation of coral and seashells gives the shoreline a distinct phosphorescent glow.

Before you leave, you could make one final stop on Santa Cruz, home of the Charles Darwin Research Station. This would be a fitting end to your magnificent trip to the Galapagos Islands.
